Eha-Mat

EHA-MAT è prodotto in uno speciale materiale sintetico con caratteristiche batteriostatiche e fungicide. Evita pertanto la proliferazione di microorganismi. E' facilmente lavabile ed offre un'altissima resistenza agli agenti chimici. Il materiale antiscivolo in cui è prodotto garantisce una tenuta ottimale sia sulla pavimentazione che sulla parte superiore a contatto con gli utenti. La trama a grata consente un immediato deflusso dell'acqua. Risponde alle norme di sicurezza antiscivolo tedesche **GUV N.2617/ DIN 51097** (test Gruppo A). Il materiale ad altissima resistenza con cui è prodotto garantisce ad EHA-MAT una durata pressoché illimitata, sia dal punto di vista dei colori che da quella del degrado del materiale stesso. Disponibile in rotoli di varie misure.

Eha-Mat

EHA-MAT is manufactured in a special synthetic material with fungicide and bacteriostatic characteristics. It therefore avoids the proliferation of microorganisms. It is easily washable and offers very high resistance to chemicals agents. The anti-slip material guarantees an optimal seal on both the flooring and on the top part, in contact with the users. The grating pattern allows for an immediate outflow of water. It meets safety standards German anti-slip *GUV No. 2617/DIN 51097 (Group A test)*. The very high strenght material guarantees to EHA-MAT almost an unlimited lifetime, from both the point of view of the colors and that one of degradation of the material itself.

Eha-Mat

EHA-MAT wird aus einem speziellen synthetischen Material mit bakteriostatischen und fungiziden Eigenschaften hergestellt. Dieses Material verhindert somit die Verbreitung von Mikroorganismen. Es kann problemlos gewaschen werden und bietet eine sehr hohe Beständigkeit gegen chemische Arbeitsstoffe. Das Fertigungsmaterial ist auch rutschfest und garantiert somit eine optimale Haftung sowohl auf dem Boden als auch an der Oberseite, mit der die Benutzer in Berührung kommen. Die gitterartige Textur gewährleistet einen unmittelbaren Abfluss von Wasser. Es erfüllt die Vorgaben der deutschen Sicherheitsnormen zur Rutschfestigkeit *GU* Nr. 2617/DIN 51097 (Test Gruppe A). Das in jeder Hinsicht äußerst beständige Fertigungsmaterial garantiert EHA-MAT eine nahezu unbegrenzte Lebensdauer, nicht nur hinsichtlich der Farben, sondern auch in puncto Materialalterung.

Eha-Mat

EHA-MAT est composé d'un matériau synthétique spécial aux propriétés bactériostatiques et fongicides. Il évite ainsi la prolifération des microorganismes. Facilement lavable, il offre une très haute résistance aux agents chimiques. Le matériau antidérapant qui le compose garantit une étanchéité optimale tant sur le sol que sur la partie supérieure en contact avec les utilisateurs. La trame en caillebotis permet un écoulement immédiat de l'eau. Il répond aux normes de sécurité sur l'antidérapant allemande GUV No.2617/DIN 51097 (test groupe A). Le matériau à très haute résistance avec lequel il est fabriqué garantit à EHA-MAT une durée de vie presque illimitée tant du point de vue des couleurs que de celui de la dégradation du matériau lui-même.

Eha-Mat

EHA-MAT se fabrica con un material sintético especial con características bacteriostáticas y fungicidas. Evita, por tanto, la proliferación de microorganismos. Se lava fácilmente y ofrece una muy alta resistencia a los agentes químicos. El material antideslizante en que se fabrica garantiza una resistencia excelente tanto en la pavimentación como en la parte superior que entra en contacto con los usuarios. La trama de rejilla permite un inmediato desagüe. Responde a las normas de seguridad antideslizante alemanas GUV N.2617/DIN 51097 (test Grupo A). El material de muy alta resistencia con que se fabrica garantiza a EHA-MAT una duración poco menos que ilimitada, tanto en lo que se refiere a los colores como a la degradación del propio material.
